SECTION 4. FIRST AID MEASURES

General advice : Move out of dangerous area. Show this safety data sheet to the doctor in attendance. Do not leave the victim unattended. Get medical attention immediately.

If inhaled : If unconscious, place in recovery position and seek medical advice. If symptoms persist, call a physician.

In case of skin contact : Immediate medical treatment is necessary as untreated wounds from corrosion of the skin heal slowly and with difficulty. Wash off immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician. Remove contaminated clothing and shoes. Wash contaminated clothing before reuse.

In case of eye contact : Small amounts splashed into eyes can cause irreversible tissue damage and blindness. Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.
Continue rinsing eyes during transport to hospital. 
Remove contact lenses. 
Protect unharmed eye. 
Keep eye wide open while rinsing. 
If eye irritation persists, consult a specialist. 

If swallowed 
Keep respiratory tract clear. 
Never give anything by mouth to an unconscious person. 
DO NOT induce vomiting unless directed to do so by a 
physician or poison control center. 
Take victim immediately to hospital. 
Do not give milk or alcoholic beverages. 

Most important symptoms and effects, both acute and delayed 
Effects are immediate and delayed. 
Symptoms may include blistering, irritation, burns, and pain. 
Effects are dependent on exposure (dose, concentration, contact time). 
Causes severe skin burns and eye damage. 
Review section 2 of SDS to see all potential hazards. 

Notes to physician 
Treat symptomatically. Symptoms may be delayed. 

SECTION 5. FIREFIGHTING MEASURES 

Suitable extinguishing media : Dry chemical 
Water spray jet 
Alcohol-resistant foam 
Carbon dioxide (CO2) 

Unsuitable extinguishing media : High volume water jet 

Specific hazards during firefighting : Do not allow run-off from fire fighting to enter drains or water courses. 

Hazardous combustion products : Carbon dioxide (CO2) 
Carbon monoxide 
Smoke 

Specific extinguishing methods : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. 

Further information : Collect contaminated fire extinguishing water separately. This must not be discharged into drains. 
Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. 
Standard procedure for chemical fires. 

Special protective equipment for firefighters : Wear self-contained breathing apparatus for firefighting if necessary. 

SECTION 6. ACCIDENTAL RELEASE MEASURES 

Personal precautions, : Use personal protective equipment.
protective equipment and emergency procedures
