COMPANY IDENTIFICATION

Tradename: U.S. TIRE-TECH, INC. TIRESMART®

Manufacturer: Custom Blending Int'l, Inc.
2217 Garden Road
Pearland, TX 77581
281-485-3120

Distributor: U.S. Tire-Tech, Inc.
2217-1 Garden Road
P.O. Box 320
Pearland, TX 77588-0320
281-485-7524

Important Numbers:
Product Information: 800-847-3832
Medical Emergency: 281-485-3120

* Disclosure as a toxic chemical is required under Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR part 372.

HAZARDS IDENTIFICATION

Potential Health Effects:

Inhalation of Ethylene Glycol Vapor: Drowsiness, Narcosis.

Attention: If the material is dried, the product could release airborne respirable fibrils. Animal studies indicate that prolonged exposure to such fibrils has the potential for lasting lung damage.

Skin: Minimally irritating.

Eye: May cause slight eye irritation.

Ingestion: Can produce dizziness, headache, blindness, 500 ml could be fatal.

Carcinogenicity: None.

Signs and Symptoms of Exposure:
Central nervous system effects, particularly dizziness and an oscillatory movement of the eyeballs.

Aggravated by Exposure: Information not available.

Carcinogenicity Information:
None of the components present in this material at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA, or ACGIH as a carcinogen.
FIRST AID MEASURES

First Aid

SKIN CONTACT
Flush skin with water after contact. Wash contaminated clothing before reuse.

EYE CONTACT
In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Call a physician.

INGESTION
If swallowed, immediately give 2 glasses of water and induce vomiting. Never give anything by mouth to an unconscious person. Call a physician.

INHALATION
Move to well ventilated area.

FIRE FIGHTING MEASURES

Flammable Properties

Flash Point : None
Method : Cleveland Open Cup - COC

Hazardous gases/vapors produced in fire are oxides of carbon.

Extinguishing Media

Water Spray, Foam, CO2, Dry Chemical.

Fire Fighting Instructions

Wear self-contained breathing apparatus.

ACCIDENTAL RELEASE MEASURES

Safeguards (Personnel)

NOTE: Review FIRE FIGHTING MEASURES and HANDLING (PERSONNEL) sections before proceeding with clean-up. Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean-up.

Initial Containment

Dike spill. Prevent material from entering sewers, waterways, or low areas.

Spill Clean-Up

Soak up with sawdust, sand, oil dry or other absorbent material. Minimize dust generation.

HANDLING AND STORAGE

Handling (Personnel)

Avoid breathing vapors, mist, and dust.
Minimize airborne fibrous dust by not allowing product to dry out.
Avoid contact with eyes, skin, or clothing.
Wash clothing after use.
Do not store or consume food, drink or tobacco in areas where they may become contaminated with this material.
HANDLING AND STORAGE - Continued

Handling (Physical Aspects)

Keep away from heat, sparks, and flames.

Storage

Keep container in a cool place.
Store in a well ventilated place.
Keep container tightly closed.

EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls

Use only with adequate ventilation.

Personal Protective Equipment

EYE/FACE PROTECTION
Wear safety glasses or covral chemical splash goggles.

RESPIRATORS
Where there is a potential for airborne exposures in excess of applicable limits, wear NIOSH/MSHA approved respiratory protection.

PROTECTIVE CLOTHING
Where there is a potential for skin contact have available and wear as appropriate impervious gloves, apron, pants, and jacket.

# Exposure Guidelines

Applicable Exposure Limits

Rev. 02/99
PHYSICAL AND CHEMICAL PROPERTIES

**Physical Data**

- Boiling Point: $> 285^\circ$ F ($> 141^\circ$ C)
- Specific Gravity: 1.1 - 1.23 (Water 1.0)
- Melting Point: Not Applicable
- Vapor Pressure: 0.08 mm Hg
- Vapor Density: $> 1$ (Air = 1.0)
- Evaporation Rate: $> 0.01$ (Butyl Acetate = 1.0)
- Color: Green
- Odor: Slight
- pH: 8.0 to 10.0
- Freezing Point: $-31^\circ$ F ($-35^\circ$ C)
- Solubility in Water: High solubility
- Form: Liquid

STABILITY AND REACTIVITY

**Chemical Stability:** Stable.

**Incompatibility with other materials:** Incompatible or can react with strong oxidizers.

**Decomposition:** Decomposition will not occur.

**Polymerization:** Polymerization will not occur.

TOXICOLOGICAL INFORMATION

**Animal Data**

**ETHYLENE GLYCOL**

Eye: Animal testing indicates this material is a mild eye irritant.

Skin: LD50, rabbit: $> 20$ ml/kg
Animal testing indicates this material is a mild skin irritant.

Ingestion: LD50, female rat: 4000 mg/kg

Inhalation: No deaths occurred in animals exposed to saturated vapors of the compound. Repeated exposure caused: Histopathological changes of liver and lungs. Eye irritation. Clouding of the eye (corneal opacity).

**Carcinogenicity, Developmental, Reproductive, and Mutagenic Effects:**

To animal testing this material has not caused carcinogenicity. Reproductive data on adult animals show: Interference with reproduction only at levels which produce other toxic effects in the adult animal. Tests have shown this material to cause developmental toxicity in animals. This material has not produced genetic damage in bacterial cultures. There are reports indicating that this material does not produce genetic damage in some animal or mammalian cell culture tests; however, there are reports in the literature that suggest positive results.

**DIETHYLENE GLYCOL**

Skin absorption LD50: 11.9 ml/kg (13,324 mg/kg) in rabbit
Oral LD50: 20,760 mg/kg in rats

The compound is not a skin irritant, but an eye irritant. The effects in animals from single high doses by ingestion include lethargy, incoordination, tubular necrosis, abnormal kidney functions, increased urine output, altered enzyme levels and activity, and liver degeneration. Repeated ingestion exposures caused severe injury to the kidneys, liver damage, and crystalline deposits in the retina, kidney and liver. Long term ingestion exposure to high doses caused
Custom Blending Int'l, Inc.
Material Safety Data Sheet

TOXICOLOGICAL INFORMATION - Continued

bladder stones and histologic changes in the pancreas. Tests in some animals demonstrate carcinogetic activity, possibly due to the chronic irritation produced by the bladder stones that occurred in these animals. Tests in bacterial or mammalian cell cultures demonstrate no mutagenic activity. Tests in some animals indicate that the compound may have developmental toxicity, but only at dose levels that are also maternally toxic. One published study has indicated some reproductive toxicity in mice given high oral doses.

ECOTOXICOLOGICAL INFORMATION

Ecotoxicological Information

Aquatic Toxicity
Ethyene Glycol
96-Hour LC50, Fathead Minnow: 49,000 mg/L

Dihylene Glycol
96-hour LC50, Mosquito Fish: >32,000 mg/L

DISPOSAL CONSIDERATIONS

Waste Disposal

Treatment, storage, transportation, and disposal must be in accordance with applicable Federal, State/Provincial, and Local regulations.

TRANSPORTATION INFORMATION

Shipping Information

DOT
Proper Shipping Name: None. Not Regulated.

Note: Packages containing less than 5,000 lbs Ethylene Glycol are not regulated by DOT, IMO (for water), or IATA/ICAO (for air).

Shipping Information - Canada

TDG Class
ICAO: Not Regulated.
IMDG:

International Civil Aviation Organization
Classification not required.

International Maritime Dangerous Goods
Classification not required.

REGULATORY INFORMATION

U.S. Federal Regulations

Canadian Regulations

TITLE III HAZARD CLASSIFICATIONS SECTIONS 311, 312

Acute: Yes
Chronic: Yes
Fire: No
Reactivity: No
Pressure: No

TSCA Inventory Status: Reported/Included.

LISTS:
SARA Extremely Hazardous Substance: No
CERCLA Hazardous Material: No
SARA Toxic Chemical: Yes

This is not a WHMIS Controlled Product.
